AGNES SCOTT COLLEGE

The purpose which has prevailed at Agnes Scott since its foundation has been to offer the very best educational advantages under positive Christian influences—the training and furnishing of the mind in a modern, well-equipped college, and at the same time the formation and development of Christian character and ideals. Along with these ends, it is constantly sought to cultivate true womanliness, a womanliness which combines strength with gentleness and refinement. It is thus the aim of the College to send out educated Christian women to be a power in blessing the world and glorifying God.

The College was founded by Presbyterians, and hence its moral standards and religious life conform as nearly as possible to those which obtain in that church. Special care, however, is taken not to interfere in any way with the religious views or church preferences of students.

The College offers only the B.A. degree. There are, however, optional courses leading to this degree, thus giving the opportunity for each student to elect a course most in accord with her special talent and plans.

ADMISSION OF STUDENTS

All correspondence in reference to admission of students should be addressed to the President of the College.

Only graduates of four-year preparatory schools of recognized standing, or applicants who can offer equivalent preparation, will be received into the College. (For the admission of special students, see page 20.)

NOTE—Beginning with the fall semester of 1921, only those applicants who can present fifteen complete units, in subjects accepted by this College, will be recommended for admission. (See page 23 for changes in admission requirements to go into effect in 1921).

Applicants for admission should not be under sixteen years of age. Candidates for advanced standing should be of an age corresponding to this rule.

Testimonials of good character from responsible persons are required. Certificates of honorable dismissal from the last school attended must be presented.

A deposit of \$10.00 is necessary for the reservation of space, which amount will be credited on bill rendered at the beginning of the session. This fee will be refunded, provided the President is notified of change of plan before August 1st.

Application blanks will be furnished when requested.

For entrance requirements and for description of entrance subjects, see below.

For admission by certificate, see page 21.

For entrance examinations, see pages 21, 22.

ENTRANCE SUBJECTS

The following subjects are accepted for entrance:

English	3	units
Mathematics	3 or 4	units
Latin	3 or 4	units
History	1, 2 or 3	units
French	2 or 3	units
German	2 or 3	units

*Bible	1	unit
†Music	1	unit

A unit represents a year's study in a standard secondary school, constituting approximately a quarter of a full year's work.

It is understood that in choosing the elective units no required unit may be counted also as an elective unit, and also that elective units may be counted only once.

The fourth unit in Latin and the unit in addition to the required 3 units in Mathematics will be accepted for entrance only by examination, when the student does not continue these subjects in College.

The entrance requirement work in French, German, Greek, and Spanish may be done in College after entrance, but will not count toward the degree.

*See Note 2 on page 39.

†See Note 1 on page 39.

STANDING TO WHICH STUDENTS ARE ADMITTED

The College admits students: (I) as unconditioned Freshmen; (II) as conditioned Freshmen; (III) as irregular students; (IV) to advanced standing; (V) as special students.

I. *As Unconditioned Freshmen.* For admission to the Freshman Class without condition fifteen units are required, partly prescribed and partly elective as shown below:

†See Note on page 39.

‡See Note on page 39.

II. *As Conditioned Freshmen.* Prior to the session beginning September, 1921, applicants desiring to enter for the B.A. degree, who can not offer at entrance the full fifteen units required for unconditioned admission, may be admitted as conditioned Freshmen, if they present a minimum of thirteen unconditioned units. The remaining units necessary to complete the required fifteen may be assumed as conditions, with the following restrictions:

1. The deficiency in no single subject (except in the case of a modern language or Greek) shall amount to more than a year of preparatory work.

2. Unconditioned work to the following extent must be offered:

(a) English to the extent of two and one-half units.

(b) Mathematics to the extent of two units.

(c) Latin to the extent of two units, if the minor requirement be chosen; or,

(d) Latin to the extent of three units, if the major requirement be chosen.

3. Fifteen complete units, including the prescribed units, must be presented before the beginning of the second year.

Conditions (except in the case of a modern language or Greek) must be removed at the student's expense and without faculty instruction.

III. *As Irregular Students.* Applicants who desire to take a partial course, without becoming candidates for the degree, may be admitted to the College as irregular students without class standing. Prior to the session beginning September, 1921, such students may present a minimum of thir-

teen units upon entrance. Of this number five are prescribed—namely, English 3 and Mathematics 2. The remaining eight units are elective and may be chosen from the list of subjects accepted for entrance (pages 14, 16). Fifteen complete units must be presented before the beginning of the second year.

These students are required to take a minimum of fifteen hours of recitation a week, which may include Music and Art, but at least nine hours must be academic work.

Should they later desire to arrange their courses for the degree, credit will be given them for work already done in the College, but they must meet all of the entrance requirements of degree students.

IV. *To Advanced Standing.* A candidate may be admitted to any of the higher classes on the following conditions:

1. She must present:
 - a. An honorable dismissal from the college she has attended.
 - b. An official statement of entrance requirements and how absolved.
 - c. An official statement of studies pursued for credit.
 - d. A catalogue of the institution with her completed courses marked.
 - e. An application for advanced credit properly filled out upon a blank provided by Agnes Scott College for this purpose.

NOTE.—If the above certificates are not entirely satisfactory, a detailed statement of individual professors will be required.

2. She must satisfy the entrance requirements of this College. If necessary, credits presented for advanced standing may be used to satisfy any deficit in the entrance requirements.

If as few as ten units have been presented for entrance into the college from which the candidate comes, no credit will be given towards the degree for courses that may remain after deduction for entrance deficiency, except upon examination.

3. When she comes from a college belonging to the Association of Colleges and Secondary Schools of the Southern States, or to an association of at least equal standing, she will be given tentative credit course by course, in so far as the courses are, in the opinion of the heads of the departments concerned, equivalent to courses offered in this College. An examination on the work offered for advanced standing may be required at any time, if the student's work should prove unsatisfactory.

4. If she comes from a college of liberal arts which offers the B.A. degree, but which is not a member of any one of the associations referred to above, she may possibly, upon the recommendation of the Committee on Advanced Standing in consultation with the heads of the departments concerned, be admitted to courses which continue the work of the courses offered for advanced standing. Upon the satisfactory completion of these courses she may be given such credit for the preliminary work as the heads of the departments involved may deem just, full credit being given only in exceptional cases. No credit, except by examination, will be given for subjects not continued in this College, nor will the degree be conferred upon such an applicant until she has completed at least thirty year-hours of work in this College.

5. If she comes from an institution not included in any one of the above classes, she will be required to take examinations for any advanced credit she may desire.

6. No credit will be allowed for courses taken by correspondence, except upon advanced standing examinations given by this College.

7. The B.A. degree will not be conferred on any student who has not done at least fifteen hours of work in residence for one complete session immediately preceding graduation.

NOTE: A candidate for advanced standing may expect some unavoidable loss of credit in transferring from another college.

V. *As Special Students.* In accordance with the regulation prescribed by "The Association of Colleges and Secondary Schools of the Southern States," candidates of maturity, who are unable, for any cause, to present the entrance requirements, may be admitted to such courses as they may be prepared to take, provided these courses are not among those covered by the entrance requirements. This provision is intended to afford an opportunity to two classes of women: (1) Those who have completed their entrance requirements so long since as to render them void; (2) Those whose preparatory work has been interrupted in the past and never resumed. The following limitations should be observed:

1. Applicants must be not less than twenty years of age at the time of application.

2. They may not matriculate in any courses covered by the entrance requirements without first satisfying the requirements in those subjects.

3. They have no class standing. If they desire later to transfer to the regular degree course, they must first satisfy the full entrance requirements.

4. If they have completed the entrance requirements in accredited schools not more than two years previously, they will be expected to submit the certificates of such schools, and enter as "regular," or as "irregular" students, and not as "special" students.

MANNER OF ADMISSION

Admission by Certificate. In lieu of entrance examinations, the College will accept certificates from any high school, fitting school, or seminary on the accredited list of the Association of Colleges and Secondary Schools of the Southern States, or from any school accredited by other college associations of equal standing, in so far as such certificates show the entrance requirements to have been duly satisfied not more than two years prior to the candidate's application for admission. Certificates should be on forms provided by the College. These forms will be furnished on application. The certificate privilege is granted to schools only and not to private instructors.

Admission by Examination. Candidates who are unable to present satisfactory certificates may be admitted by examination.

Any candidate applying for entrance examinations after the times appointed for holding them will be charged a fee of \$5.00. All candidates expecting to take examinations should arrive at the College by noon Tuesday, September 14th. The September schedule is as follows:

II. *As Conditioned Freshmen* upon the presentation of fifteen complete units chosen from the list of accepted subjects on page 16, but lacking a maximum of two units of those *prescribed for unconditioned admission*. These conditions in prescribed subjects must be removed before the beginning of the second year.

V. *As Special Students*, as detailed on pages 20, 21.

DESCRIPTION OF ENTRANCE SUBJECTS

English

ENGLISH, three units.—The College entrance requirements of the New England, Middle, and Southern States Associations of Colleges and Secondary Schools constitute the entrance work in English.

The requirement in English has two branches, Rhetoric and English Literature. The study of English should be continuous throughout the four years of the high-school course.

I. RHETORIC AND COMPOSITION, one unit and a half.—It is hoped that at least one-half of the high-school course in English will be devoted to the work in composition and Rhetoric, either as a separate study or in connection with the work in literature, as it is a prime essential to success in any branch of collegiate work that the student be able to express herself, both orally and in writing, with correctness and clearness.

To meet this requirement in composition:

1. *There should be practice in writing, the equivalent of at least one theme a week during the four years of her preparatory course.* She must be able to spell, capitalize, and punctuate correctly; no candidate will be accepted whose work is notably deficient in this respect. She must also have a practical knowledge of English grammar.

2. There should be a systematic study of Rhetoric. Particular attention should be given to the structure of the sentence, paragraph, and whole composition.

The following books are recommended for study in preparation: In Rhetoric, Herrick and Damon's Composition and Rhetoric; Scott and Denney's Composition-Rhetoric; Genung's Outlines of Rhetoric; Hill's Foundations of Rhetoric; Brook and Hubbard's Rhetoric; Webster's English Composition and Literature.

II. LITERATURE, one unit and a half.

The Odyssey, Iliad, and *Æneid* should be read in English translations of recognized literary excellence.

For any selection of this group a selection from any other group may be substituted.

2. *Study and Practice* (1920-21).—This part of the examination presupposes the thorough study of the works named below. The examinations will be upon subject-matter, form, and structure. This requirement means that

the student should have been trained to use simple forms of narration, description, exposition, and argument in her own composition. In addition, the candidate may be required to answer questions involving the essentials of English grammar, and questions on the leading facts in those periods of English literary history to which the prescribed works belong. The books provided for study are arranged in four groups, from each of which one selection is to be made:

A. DRAMA. Shakespere: Julius Cæsar, Macbeth, Hamlet.

B. POETRY. Milton: L'Allegro, Il Penseroso, and either Comus or Lycidas. Tennyson: The Coming of Arthur, The Holy Grail, and the Passing of Arthur. The selections from Wordsworth, Keats, and Shelley in Book IV of Palgrave's Golden Treasury (First Series).

C. ORATORY. Burke: Speech on Conciliation with America. Macaulay's Two Speeches on Copyright and Lincoln's Speech at Cooper Union. Washington's Farewell Address and Webster's First Bunker Hill Oration.

D. ESSAYS. Carlyle: Essay on Burns, with a selection from Burns' poems. Macaulay: Life of Johnson. Emerson: Essay on Manners.

As additional evidence of preparation the candidate may present an exercise book, properly certified by her instructor, containing compositions or other written work.

It is taken for granted that the candidate will have learned by heart passages from all the poems she has read.

Latin

All students entering the degree course must present the minor requirement in Latin and are advised to offer the major requirement.

MINOR REQUIREMENT, three units.—1 or 2.

a. Latin Grammar, one unit.—A thorough knowledge of all regular inflections, and the common irregular forms; the simpler rules for composition and derivation of words; syntax of nouns and verbs; structure of sentences, with special emphasis upon relative and conditional sentences, indirect discourse, and the uses of the subjunctive.

b. Cæsar, one unit.—Gallic War, I-IV, or an equivalent amount of Latin selected from the following: Cæsar: Gallic War, and Civil War; Nepos: Lives. Latin composition.

Latin Composition.—Those who receive credit for *b* and *c* must be able to translate into correct Latin detached sentences involving all regular inflections and all common irregular forms, and illustrating the principal grammatical constructions found in the prose authors read. To secure such ability, the preparation must include a *systematic study* of the main principles of Latin syntax, and one period a week throughout each year should be devoted to prose.

Greek

Students may offer for entrance in Greek either the minor or the major requirement. The minor requirement is counted as two units, and presupposes a study of Greek during two full years, five recitations a week. The major requirement is counted as three units, and presupposes three years of preparation, five recitations a week. The ground which must be covered is as follows:

tence as treated in Allen's First Year of Greek, or its equivalent, must be *thoroughly mastered*. Constant attention should be paid to translation from English into Greek.

b. *Xenophon*: Anabasis, three books. Special attention should be paid to Greek syntax and to the use of good English in translating. Thorough drill on translation from English into Greek.

2. For the major requirement—

The student must have completed the minor requirement as outlined above and in addition have read three books of Homer's Iliad, or an equivalent amount in Homer's Odyssey. Constant practice should be given in prose composition, in translation at sight, and in Homeric forms and syntax.

German

MINOR REQUIREMENT (admitting to German 1), two units.—Thomas's Practical German Grammar, Part I in full, or the equivalent in grammar and prose composition; at least ten stories of Guerber's Märchen and Erzählungen, Part I, used for memory work in the abundant idioms which this text affords, and as a basis for conversation and *oral* narration. The reading *in addition* of at least 150 pages of prose from *carefully graduated texts*. This requirement includes careful *drill in pronunciation and in reading German ALOUD*; the inflection of articles, nouns, adjectives, pronouns, weak verbs and most of the strong verbs; the common uses of the subjunctive and of modal auxiliaries, *both in translation and in prose*; a considerable drill also in the less common modal constructions and idioms; familiarity with the functions of *all* the common prepositions, with the principles of syntax and word-order; the memorizing of idioms of daily life and of simple German poems; conversation; *oral* narrative; *reading at sight*.

NOTE.—If the third unit of the major requirement is offered in addition to the full entrance requirement in other subjects, it may be counted toward the degree. It is understood, however, that this third unit includes five recitations a week for one year. Students presenting the major requirement will be expected to take an examination in conversation at least, since it is *essential* that students of this grade be able to follow and to take part with comparative ease in recitation conducted in German.

THIRD LANGUAGE REQUIREMENT, one unit.—Thomas's practical German Grammar to Demonstratives, page 101. At least five stories from Guerber's *Märchen und Erzählungen*, Part 1, used as suggested above under minor requirement. At least two years with daily recitations should be given to algebra. The use of graphical methods and illustrations, particularly in connection with the solution of equations, is required.

Plane Geometry, one unit.—The subject as presented by any of the best text-books. Much attention must be paid to original exercises.

At least one year with daily recitations should be given to geometry.

Recent review of subjects studied early in the preparatory course is urged.

MAJOR REQUIREMENT. Four units.—To meet this require-

ment the candidate must present the work as given under the minor requirement and in addition the following:

1. *Solid and Spherical Geometry*, including the text and numerous original propositions and numerical problems.

2. *Plane Trigonometry*. This course should be preceded by a short review course in algebra.

Students not pursuing the subject of mathematics in College will be given credit for the above unit only by examination.

History

For entrance in history each of the following four subjects is counted as *one unit*. Each unit represents the amount of work which can be covered in five recitations a week during one year, or in three recitations a week during two years.

a. Greek History to the Death of Alexander, and Roman History to 800 A. D., or Ancient and Mediaeval History.

It is strongly urged that every student offer Greek and Roman History for entrance.

b. Mediæval and Modern European History, from 800 A.D. to the present time, or Modern European History.

c. English History.

d. American History.

Of these four units the student *must* offer one unit, and *may* offer two additional units.

The examinations will be based upon modern high school text-books.

It is strongly recommended that the preparation in History include, besides the study of a text-book, parallel reading,

use of a notebook, taking of notes, and practice in the filling in of outline maps.

Natural Sciences

The student may offer one, two, or three units from those given below. Each should represent the work of one year, and should include a large amount of individual laboratory work. The laboratory work should be directed by a competent instructor and records made in a notebook, while in the field or laboratory. This notebook, endorsed by the instructor who supervised the work, must be presented.

1. PHYSICS. The amount of work required is represented by such texts as Gage, Milliken and Gale, or Hoadley. The laboratory work must include at least thirty-five selected exercises. One unit.

2. CHEMISTRY. This course covers general inorganic chemistry, embracing a study of non-metals and metals. Remsen, Williams, McPherson, and Henderson are acceptable texts. One unit.

3. BIOLOGY—

a. *Botany*. This course should include the study of the general laws of plant physiology, the fundamental principles of plant morphology, the classification of the phanerogams, and an investigation of the typical plants of the chief divisions of the plant kingdom. The laboratory work must occupy at least half of the time devoted to the study. The work may be founded on such texts as Coulter, Bergen, Stevens, or Leavitt. *One unit, or one-half unit.

b. *Zoölogy*. Eighteen types representing the principal divisions of the animal kingdom should be studied and the

*According to whether the course has covered one complete session or only one-half session.

study of the living animal should always precede dissection. The course embraces both invertebrate and vertebrate forms. Such texts as Davenport or Herrick are recommended. *One unit, or one-half unit.

4. **PHYSIOGRAPHY.** This course embraces: The principles of physiography as given in such texts as Davis, or Tarr, field work through the course, the interpretation and use of topographic maps and weather maps. *One unit, or one-half unit.

5. **PHYSIOLOGY.** A course based upon Martin's Human Body, or Foster and Shore. *One unit, or one-half unit.

NOTE 1.—One unit, in the elective group, may be offered in Music, provided an entrance examination be passed in theory and instrumental proficiency; and further provided that the preparation for such examination shall not be done in College for College admission. For the details of this requirement, see page 99.

NOTE 2.—In order to encourage the study of the Bible in preparatory schools, the College will accept, in the elective group, *one unit* in this subject under the following conditions:

1. The course must conform in scope and detail to the Bible study course outlined for college entrance by the Virginia State Board of Education.†

2. Not less than one unit may in any circumstances be offered.

3. Credit for this work will be given only after an examination conducted by the College authorities.

*According to whether the course has covered one complete session or only one-half session.

†See University of Virginia Record Extension Series, Volume II, Number 1.

CURRICULUM

ADMINISTRATION OF THE CURRICULUM

REGISTRATION

Students report first to the Registrar's office, where they are registered and given their matriculation cards. They then meet with the appropriate Committees for classification.

NOTE—If, for any cause, a student fails to register in time to attend her first scheduled lecture, either at the beginning of a semester or on returning from a vacation, she is charged a fee of \$5.00 for late registration.

CLASSIFICATION

Students are expected to make themselves thoroughly familiar with the plan of the curriculum and to arrange their courses so as to conform with its demands. By so doing they will greatly reduce the necessarily arduous work of the Committees.

First year students present their cards to the Committee on Admission, and their courses are selected with the advice of this Committee. On or before April fifteenth, all students at that time in residence are required to file with the Registrar tentative statements of their courses for the next ensuing year. These programmes are reviewed by the Committee on Electives and approved or revised. The cards, with the courses entered upon them in due form, are obtained from the Registrar in the fall, presented to the professors of the subjects, and, when they have been properly signed, returned to the Registrar's office.

After a course has been agreed upon by the student, with the advice of the Committee on Admission or the Committee on Electives, no change will be permitted, unless the question of the student's health be involved. All students must be definitely classified within two weeks after their arrival at the College.

ATTENDANCE ON LECTURES

Students are required to attend their lectures regularly and promptly. Absence from courses without due excuse results inevitably in the lowering of the student's standing. Professors are authorized to require students to make up work by taking written tests covering the periods lost through absence, whether the absence be excused or unexcused.

EXAMINATIONS

1. General examinations are held twice a year, in January and in May. Failure to attend any of these examinations, for any cause other than sickness, results in the dropping of the delinquent from the student body. In case of absence from examination because of sickness, the student will be given an opportunity to take the examination in question at the regular time set for re-examinations. (See below.)

2. Examinations for advanced standing upon work done in some other institution, or in the summer, must be taken at such time as may be arranged for by the professors whose departments are concerned, provided that such examinations may not be given later than December fifteenth for the first semester's work, nor later than April fifteenth for the second semester's work. These examinations for advanced standing are more extended than ordinary examinations, be-

ing in no case less than five hours in duration. In the case of failure on an examination for advanced standing, no re-examination is permitted.

3. Re-examinations are allowed in case of conditional failure. These examinations for the first semester's work are given in the second week of the second semester, and for the second semester's work in the first week of the fall semester next following. Those failing in the re-examination will be required to repeat the course in question or forfeit the credit. In no case will more than one re-examination be allowed in the same subject.

In case of unconditional failure in a subject, no re-examination will be allowed.

4. If for any cause students find it advisable to apply for examinations at any other time than that announced in the regular schedule, or arranged for by the professors involved, such applicants must present the Registrar's receipt for five dollars (\$5.00) for each examination desired, before the professors are authorized to give the same. Such examinations are known as "Special" examinations.

This regulation applies to re-examinations as well as to general and advanced examinations.

SEMESTER AND YEAR CREDITS

A semester credit is the value in half hours of any course pursued through one semester. Thus, if a course scheduled for three hours a week for one semester be taken, the resulting credit towards the sixty-two hours required for the degree is one hour and a half. A year credit is the value in hours of a course pursued throughout the year. Thus, a course scheduled for three hours a week for the whole year will give a credit of three hours towards the degree.

MERIT POINTS

Grades indicating the student's standing in any course are officially recorded as follows: "A," excellent attainment; "B," very good attainment; "C" good attainment; "D," passable attainment; "E," failure, with privilege of re-examination; "F," unconditional failure. The grades "A," "B," and "C," are known as "merit" grades, each of these letters denoting a certain number of "merit points." In order to attain the Bachelor of Arts degree, a student must be credited with at least thirty of these merit points, not fewer than six of which must be made in her senior year. On the remaining hours of the course a grade of at least "D" must be made.

Exact grades are not announced to students, their reports containing only the information, "Passed with merit," "Passed," or "Failed."

REQUIRED RESIDENCE

The degree will not be conferred upon any student who has not done at least one full session of work in residence.

AUTOMATIC EXCLUSION

Any student whose work is notably unsatisfactory at the end of the first semester is considered to have excluded herself automatically from the College, unless by vote of the faculty she be put on probation for the remainder of the year. If at the end of the year she shall have failed to make credits to the extent of at least two year courses, amounting to not less than five hours towards the degree, she shall be considered to have excluded herself automatically from the College for the next ensuing year.

NOTE.—In addition to the enforcement of the above law, the College reserves the right to request the withdrawal of

students who can not remain in residence without danger to their own health or to the health of others, or whose presence is found to lower the moral tone of the College. Students of this last class may be asked to withdraw, even though no specific charges be made against them.

THE BACHELOR OF ARTS DEGREE

THE GROUP SYSTEM

A fundamental principle of the arrangement of the courses for the B.A. degree is that of the group system, which comes into operation in the choice of elective courses. By requiring a certain amount of work to be elected from each of the three groups, the College assures to its B.A. graduates proper breadth of culture; and by requiring a major subject, together with allied subjects, to be chosen from one of the groups, it gives to the student also the intensive training necessary for the best mental development.

The groups are as follows:

GROUP I	GROUP II	GROUP III
LANGUAGE—	HISTORY—	SCIENCE—
LITERATURE	PHILOSOPHY	MATHEMATICS
English	Sociology and	Astronomy
Latin	Economics	Biology
Greek	History	Chemistry
German	Philosophy	Mathematics
French	Education	Physics
Spanish	Bible	

REQUIREMENTS FOR THE DEGREE

Candidates for the B.A. degree must present sixty-two hours of work, of which two hours' value must be made in

physical education. Of the remaining sixty hours thirty and one-half are prescribed and twenty-nine and one-half elective. All courses are planned and electives chosen with the advice of the Committee on Admission or the Committee on Electives. Since the design of the curriculum is to reserve elective courses for the more mature years of the student, the Committees will allow postponement of the work prescribed for the Freshman and Sophomore years only in such cases as may for special reasons demand this procedure. (See Section (10) page 47.)

*1. The prescribed hours are as follows:

English	6	hours
A Modern Language, or Greek.....	6	hours
Mathematics	3	hours
Two of the three sciences, Biology, Chemistry, or Physics	6	hours
History	3	hours
Bible	3½	hours
Philosophy	3	hours
	<hr/>	
	30½ hours	

2. The elective hours are to be distributed as follows:

(a) A major subject of not less than nine hours must be chosen, together with six hours from the same group in addition to the major and the prescribed courses falling in this group. The choice of the major subject must be settled by the beginning of the Junior year.

Major courses are offered in the following subjects: English, French, German, Latin, History, Biology, Chemistry,

*One hour semester courses in Hygiene and Spoken English are required of all Freshmen and Sophomores respectively.

The Spoken English is not counted towards the degree. For Hygiene, see page 97.

Physics, Mathematics, Philosophy, Sociology, and English Bible.

NOTE.—The following may not be elected to satisfy group requirements as to the major or the allied hours :

(1) Elementary courses (with the exception of the first year course in a third science).

(2) Courses in Music, Art History, and Spoken English.

(b) The remaining hours necessary to complete the required sixty-two hours may be chosen at will, subject to the following restrictions :

(1) Not more than six hours may be taken in any one department in any given semester.

(2) Students offering for entrance two languages in addition to Latin must continue one of these two languages in the Freshman year. Those offering for entrance Latin and one other language must continue that other language in the Freshman year. This rule comes into operation in the choice of the group of studies to be taken in the Freshman year.

(3) Students offering for entrance four units of Latin and no additional foreign language must take in the Freshman year the elementary course in French, German, Spanish, or Greek. This elementary course will be counted toward the degree only on condition that it be followed in Greek by Course 1 or Course 4, in the other languages by Course 1.

(4) Students offering four units in Latin for entrance, even from accredited schools, who do not wish to continue Latin in College, are required to pass an examination cover-

ing both the Latin read in the last preparatory year and the entrance requirement in Latin prose composition.

(5) Students offering for entrance one unit in a third language must continue this third language in College, or take an examination on the work offered.

(6) One year of a foreign language may be counted in making up the requirements for the degree only when that language is the fourth foreign language that the student has taken.

(7) If a third language is taken in College for entrance credit, it must be continued through Course 1.

(8) Students who do not offer at least one of the three sciences, biology, chemistry, or physics, for entrance, must take one of these subjects in the Freshman year and another of the three later. Those offering one or more of these sciences for entrance, may elect history instead of science in the Freshman year, taking one of the sciences in her Sophomore year and the other in the Junior or Senior year.

(9) Students electing Group D (see pages 49, 50), but who do not major in science or mathematics, are required to take, in addition to the science and mathematics prescribed for all students, an advanced course of three hours in the third of the three sciences, biology, chemistry, physics, or three additional hours in mathematics.

(10) Subjects prescribed for the Freshman or the Sophomore year may not be postponed later than the Junior year, and then only upon the advice of the Committee on Admission, in the case of first year students, or the Committee on Electives, in the case of advanced students.

3. In order to receive the two hours of credit required in physical education, the student must have completed three years of work in this department. Special arrangements will be made for those entering with advanced standing.

4. For the requirements as to "merit points" and residence see page 43.

OUTLINE OF COURSES

The following outline indicates the courses that are offered to each class. The work of the Freshman class is prescribed, but in optional groups. The unenclosed figures refer to the courses of instruction as announced by the department, and the figures in parentheses indicate the number of recitations or lectures a week in each course.

JUNIOR AND SENIOR YEARS

Bible 3, Philosophy 1, and Philosophy 2 are required of all candidates for the degree in the Junior or Senior year, unless previously elected. These courses count together five hours. The remaining twenty-five hours of work for these two years combined are to be made up from the elective courses chosen under the rules governing the choice of elective courses. The physical education requirement must be finished.

MUSIC

PROFESSOR DIECKMANN
MISS SUTPHEN
MISS BARTHOLOMEW

MR. JOHNSON
MISS PHILLIPS
MR. FLICK

The Music Department offers through its various courses in the theoretical and practical study of music, in connection with studies in the College, adequate facilities to fit students for a professional life, and also to provide for the study of music as a part of general culture or as an accomplishment. The aim is to cultivate a more intelligent appreciation of the art, to understand its structure and its rich and varied literature, to know the history of its development, its place in the general history of culture, and to develop the power of interpretation.

Since no special line of study can be successful without a broad foundation, students are urged not to undertake the study of music exclusively, until they have acquired the essential elements of a good general education.

With this end in view, the work of this department has been rearranged, and courses are offered, so that regular College students, working for a degree, may include music as a secondary study, with credit for it, and special students of music may avail themselves of the training offered in the literary courses of the College.

Degree Credit

Credit toward the degree will be allowed for courses in music under the following conditions:

1. The student must pass a satisfactory examination in Course 1, (see page 100), and demonstrate a sufficient technical ability to play correctly—with regard to position of hands, fingering, phrasing, rhythm, tempo, and dynamic effects—works of the grade of the simpler two-part inventions of Bach; C major and G major sonatas of Mozart; and some of the simpler Songs Without Words, of Mendelssohn.

NOTE.—This requirement, when offered at entrance into College, will be accepted, upon examination only, as one unit in the elective group.

2. Students who have met the above requirement may receive credit for practical music to the extent of two hours a year for three years upon the satisfactory completion of the following work:

a. Two lessons weekly of half an hour each in piano or organ.

b. One hour and a half of practice daily for six days each week.

c. Theoretical work amounting to at least one credit hour in addition to the two hours of practical credit.

3. The total possible credit in practical music shall not exceed six hours, and the total possible credit for practical and theoretical music shall not exceed nine hours.

NOTE 1.—If credit courses in Spoken English be likewise elected, not more than nine hours of music and Spoken English combined will be allowed to count towards the degree.

NOTE 2.—Courses in music may not be included in the six allied hours required in the major group. (For a like restriction on courses in Spoken English, see page 56.)

Theoretical, Historical, and Critical Courses

1. THEORY.—Rudiments, notation, intervals, scales, meter, chords, terms, ear-training.

Two lessons a week.

Open to all students and adapted to individual proficiency.

8. ORGAN.—Only students who have had considerable training on the piano and a fair knowledge of harmony should undertake this course.

It is the aim of the instruction to develop intelligent organists for church and concert work.

From the beginning, pedal technic, registration, and organ touch go hand-in-hand, together with pedal studies, leading to the modern writers and later to the great works of Bach.

Particular attention is given to hymn-playing, accompaniments for solo and choir, modulation, transposition.

Special stress is laid on the dignity of the church service, and a careful selection is made of organ literature suitable for divine worship.

NOTE.—Students not candidates for the B.A. degree who wish to specialize in music must meet the requirements for admission of irregular students to the College, and must take the equivalent of fifteen hours of work a week, one hour of music being equivalent to one hour of recitation and three hours' practice on an instrument counting as equivalent to one hour of recitation.

ART

MISS LEWIS.

The purpose for which this department is conducted is to maintain a high standard of efficiency in the pictorial and decorative arts, and to give the student an intelligent appreciation of the works of the masters.

Around this principle are grouped the various branches of art education, giving in addition to technical training a knowledge of the historical development of art, theory of design and color, and practical work in the criticism and composition of pictures.

The studio practice is divided into four parts:

1. Drawing from cast and still life.
2. Drawing and painting from still life.
3. Drawing from life; painting from still life; outdoor painting.

GENERAL INFORMATION

SITUATION

The College is situated in Decatur, a town of over 6,000 population, six miles east of Atlanta. It is connected with the city by steam cars and two trolley lines. Cars run every ten minutes, and the time from the College to the center of the city is twenty-five minutes. The elevation of the town is 1,050 feet, the water freestone, and the climate free from extremes of heat or cold.

Thirteen railroads radiate from Atlanta. There are one hundred and thirty-six passenger trains in and out of the city daily, exclusive of the strictly suburban service. There

are through Pullman sleepers to Atlanta from New York, Philadelphia, Baltimore, Washington, Lynchburg, Charlotte, Richmond, Raleigh, Cincinnati, Chicago, Memphis, Kansas City, Shreveport, Vicksburg, Jackson, New Orleans, Mobile, Montgomery, Jacksonville, Savannah, St. Louis, Nashville, and many intermediate points.

BUILDINGS AND EQUIPMENT

The buildings of the College, twenty in number, including several cottages occupied by members of the faculty, are situated upon a well-shaded and spacious campus of rare natural beauty. With the exception of the White House, the Infirmary, and the Laundry, all the principal buildings are substantially constructed of brick, with trimmings of granite, limestone, or marble. Readers of this Bulletin will be especially interested in such of these buildings as form the working plant of the institution, and so the following brief description is given. Application may be made to the Registrar for any special information that may be desired concerning the halls of residence.

Academic Halls

THE AGNES SCOTT HALL was the gift of the late Colonel George W. Scott, the revered and generous friend of the College by whose munificence its existence was originally made possible. This building contains the offices of administration, besides various lecture-rooms, reception rooms, the art studio, and piano practice rooms. It is centrally situated and easily accessible from all parts of the campus. (See also Residence Halls, below.)

THE CARNEGIE LIBRARY BUILDING, the gift of Mr. Andrew Carnegie, is a two-story structure containing a lofty and spa-

cious reading-room, librarian's offices, special department study rooms, and stack space for twenty thousand volumes. The most approved card index system of cataloguing and the services of a trained librarian render all books easily available to students. The reading-room is supplied with the leading literary, scientific and educational magazines, and with journals of music and art. In addition to the general library, mention should be made of the scientific library in Lowry Hall. The library is open every day, except Sundays and holidays, from 8 a. m. to 1 p. m., from 2 to 6 p. m., and from 7 to 9 p. m.

THE LOWRY HALL affords excellent accommodation for the departments of biology, chemistry, and physics. It is equipped throughout with all appliances necessary for the proper teaching of these subjects, including electricity, gas, and hot and cold water, both in the lecture-rooms and in the various laboratories. On the left side of the main entrance is a bronze tablet with this inscription:

"This Science Hall is perpetually endowed by Robert J. and Emma C. Lowry in Memory of their Son, William Markham Lowry, Anno Domini, 1910."

The department of biology contains two laboratories, a lecture room, a professor's office and library, a vivarium, a photographic room, a storage room, and a museum. The work of instruction and research commands the aid of suitable apparatus, such as microscopes, microtomes, ovens, baths, charts, and illustrative collections.

The department of chemistry is well supplied with chemicals and chemical apparatus and the laboratories have every modern convenience that could be desired. Besides a large basement, there are five commodious laboratories, a lecture

room, a research laboratory, a professor's office, a library, three storage rooms, and two balance rooms.

In addition to these laboratories a geological museum is being equipped, and already a considerable number of fossils and mineralogical specimens are on hand.

The department of physics contains a large lecture room, a professor's office and reference library, a dark room, a large and well-equipped laboratory, and two store rooms.

PHILOSOPHY HALL, a two-story building, contains the lecture-rooms of the departments of philosophy, education, and English.

THE GYMNASIUM HALL is a three-story building containing, besides the gymnasium proper, various lecture-rooms. The entire lower floor, forty by eighty feet in extent, is devoted to the department of physical culture. The exercise hall is adequately equipped with apparatus for the work of physical development. Adjoining the exercise hall, and opening into it, is the natatorium, containing shower baths and lockers, as well as a moderate sized swimming pool.

Residence Halls

There are four residence halls, in addition to three cottages, giving dormitory space for three hundred and seventeen. All these buildings are comfortably equipped, lighted by electricity and heated by steam, and all contain both double and single rooms. Each floor of every hall is furnished with conveniently placed groups of bath-rooms, with hot and cold water. All rooms are furnished with single beds, and other necessary equipment, including a clothes press or wardrobe for each occupant. Abundant fire escapes, together with hose,

fire buckets, and extinguishers on every floor, reduce to a minimum the danger of fire; but as an additional precaution the residence halls are under the constant and careful supervision of a watchman who is on duty all of every night.

THE AGNES SCOTT HALL contains, besides the administrative offices, lecture-rooms, etc., above referred to, dormitory space for about seventy-five students.

THE REBEKAH SCOTT HALL, a memorial to the late Mrs. Rebekah Scott, wife of Colonel George W. Scott, contains, besides two dormitory floors, the College Chapel, the halls of the two debating societies, a large dining-room, a commodious lobby, and various reception rooms. A colonnade connects this building with the AGNES SCOTT HALL and thus renders available for the latter building the dining-room of the former.

THE JENNIE D. INMAN HALL, a gift to the College of the late Samuel Martin Inman (for many years the honored Chairman of the Board of Trustees), as a memorial to his deceased wife, has three floors devoted entirely to bed-rooms. The wide veranda of the building is extended to meet that of the WHITE HOUSE, in which is located the dining-room for both these halls.

THE WHITE HOUSE affords accommodation for a number of the ladies of the faculty, and has besides limited space for the occupation of students. The entire lower floor of this building is occupied by the dining-room, kitchen, pantries, etc.

THREE COTTAGES, situated on the campus, offer accommodation for about thirty students. These cottages are comfortably furnished and supplied with all modern conveniences.

Assignments of space in them will be made only upon special request.

Auxiliary Buildings

THE ALUMNAE INFIRMARY, a well-built two-story house, situated south of Lowry Hall, was added to the College plant through the efforts of the alumnae. The building has been arranged so that it is admirably adapted to its purpose.

In recognition of the generosity and affectionate interest of the alumnae in their Alma Mater, the Trustees have named the building The Alumnae Infirmary.

ELECTRIC AND STEAM PLANT.—Electric light and steam heat are supplied to all the College buildings from a modern and well-equipped plant situated on the south border of the campus.

STEAM LAUNDRY.—A steam laundry, adjoining the electric and steam plant, is operated for the benefit of the College community.

MEMORIAL FUNDS

The George W. Scott Foundation

In November, 1909, citizens of Decatur, in order to express their affectionate admiration of one of the town's most useful and public-spirited men, and at the same time to assist in perpetuating the work of the College which had been so dear to his heart, contributed the sum of \$29,000 for the establishment of "The George W. Scott Memorial Foundation," for the endowment of some department of the College, the exact disposition of the fund being left to the direction of the Board of Trustees. The income from this

fund is for the present applied to the maintenance of the department of the English Bible.

The Lowry Foundation

As a tribute to the memory of their deceased son, Edwin Markham Lowry, Mr. and Mrs. Robert J. Lowry, of Atlanta, have contributed to the College the sum of \$25,000. The income from this fund is applied towards the maintenance of the natural sciences, and in recognition of the generosity of the donors, the science building has been given the name "Lowry Hall."

THE MAPLEWOOD INSTITUTE MEMORIAL SCHOLARSHIP \$2,500

At a meeting of the Maplewood Institute Association (Pittsfield, Mass.), on June 5th, 1919, it was voted to give to Agnes Scott College a fund of twenty-five hundred dollars (\$2,500) to found a "Maplewood Institute Memorial Scholarship," the interest on this sum to be used each year as the College thinks best in aiding some worthy girl in her education.

ANNUAL SCHOLARSHIPS BY MR. AND MRS. H. P. HER-
 MANCE\$250.00

For so long a time as they may reside in Atlanta these friends of the College have agreed to give the sum of one hundred and twenty-five (\$125.00) dollars each a year in order to assist worthy young women to obtain their college education. Preference is given to applicants living in Atlanta or the vicinity. Applications should be filed with the President of the College.

GENERAL SCHOLARSHIPS

THE COLLEGIATE SCHOLARSHIP.—The College offers tuition for the next session to the student, in any class below Senior, who attains the highest general proficiency. In order to compete for this scholarship, the student must pursue a regular course. The scholarship is not transferable, and is good only for the session immediately succeeding the Commencement at which it is awarded.

THE ALUMNÆ SCHOLARSHIPS.—The alumnae have caught the spirit of helpfulness which characterizes their Alma Mater, and have established two scholarship funds for the benefit of worthy applicants who are in need of such assistance. They have given to the College the sum of \$1,000, the income from which is known as "The Alumnae Scholarship." The amount of this aid is \$60.00 annually. Written permission must be secured from the Dean before a student can drop any *Special*.

All letters on business or concerning the general management of the College, or concerning any matter affecting the welfare or interest of students should be addressed to the President. Letters relative to students accounts should be addressed to the Treasurer.

Letters concerning the life in the dormitories, or health, or discipline should be addressed to the Dean.

NO DEDUCTION FOR ANY CAUSE WILL BE ALLOWED STUDENTS WITHDRAWING AFTER THE BEGINNING OF THE FOURTH QUARTER.

All drafts, checks, and money orders should be made payable to Agnes Scott College. If remittance is by local check, add one-fourth ($\frac{1}{4}$) of one per cent. for exchange.

It is recommended that a deposit of \$20.00 be made with the bookkeeper to pay for books and stationery. These are sold at the College at city prices *for cash*. Patrons must not ask to have them charged and put on their bills, as no accounts are open on our books for charges of this kind.

It is hoped that parents will make only moderate allowance to their daughters for spending money. When money is deposited with the Treasurer for students, it is paid out on their checks, and no other account is kept by the College except cancelled checks.

The College will not advance money to students.

In cases of protracted sickness or contagious diseases, parents must provide a nurse at their own expense.

Patrons must pay for medicines and for consultations.

A fee of \$5.00 is charged for B. A. diploma and \$2.00 for Music or Art certificate.

All dues to the College must be paid before either diploma or certificate will be awarded.

The College exercises every precaution to protect property of students, but will not be responsible for losses of any kind.

For the accommodation of students and teachers the College receives packages for them, and the utmost care is taken to have these packages properly delivered to the owners, but the College will not be responsible for any losses that may occur.

Discounts

When two or more boarding students are entered from the same family, a discount of five per cent. is allowed on total bills, except laboratory fees and maintenance fee. When a student takes two musics, a discount of ten per cent. on "Specials" taken will be allowed, except laboratory fees.

Students holding College scholarships will not be given any further discounts.

In no case will two discounts be given the same student.

A discount of \$100 on tuition will be made to ministers *regularly engaged* in their calling who send their daughters as boarding students. All other charges, including branches under the head *Special*, will be at regular rates.

To ministers *regularly engaged* in their calling, who send their daughters as day students, a discount of ten per cent. will be given on tuition. Branches under the head *Special* will be charged for at catalogue rates.

NO DISCOUNT WILL BE ALLOWED EITHER BOARDING OR DAY STUDENTS FOR ABSENCE FROM ANY CAUSE EXCEPT SICKNESS OF THE STUDENTS, AND THAT ONLY WHEN THE ABSENCE IS FOR AS LONG A PERIOD AS ONE MONTH.

Parents must not expect to pay *only* for the time their daughters are in actual attendance. No student will be re-

ceived for less than a quarter of the session, and then *only* by special arrangement with the President.

No reduction will be made for holidays. Students not returning after Christmas will be charged to end of the semester.

The boarding department will be closed during the Christmas holidays. One dormitory will be kept open and arrangements for meals can be made.

Furniture

The College supplies each room with bedstead, bureau, wardrobe, washstand, chairs, mattress, pillows, and crockery. Each student should bring with her sheets, blankets, counterpanes, pillow-cases (35 x 22), towels, napkins, napkin-ring, teaspoon, and any articles, as rugs, curtains, etc., of use or ornament desired for her room. The bed clothing should be the size used for single or three-quarter beds.

All articles, including trunks, must be plainly and durably marked with the name of the owner. Failure to comply with this requirement causes great inconvenience and sometimes loss.

Arrivals at Night

Students arriving in Atlanta in time for the opening of College in September and after the Christmas holidays are met by representatives of the College without charge.

At other times a chaperon's fee of \$2.50 will be charged for meeting trains before 9 P. M. and \$5.00 for meeting trains after that hour.

Guests

The College regrets that it has been found necessary to limit the free hospitality it has heretofore extended. Since every space in the dormitories is occupied by faculty and

students, guests can not be entertained without serious inconvenience except from Saturday to Monday. At such times, after consultation with the Dean, vacancies caused by the temporary absence of students may be utilized for guests at a charge of one dollar a day. Whether guests are being entertained for the week-end or for a single meal, permission must be obtained from the Dean and meal tickets procured at the business office.

The above regulations do not apply to the *alumnæ*. When they desire to visit the College they are asked to communicate with the Dean stating the date and the length of the proposed visit.

All guests are expected to conform to the dormitory regulations.

STUDENT ACTIVITIES

The student organizations and publications occupy a most important place in the community life of the College, and are commended as valuable educational aids in the work of training young women for the highest efficiency. It will be evident that these enterprises entail a certain amount of financial expenditure. In order to reduce this expense to a minimum, and at the same time to insure the continued life and activity of the various necessary developments of the student body, a general co-operative plan has been devised by the students, which was put into operation by them for the first time in the beginning of the session of 1916-17. This plan is as follows: At some time in the early fall, an opportunity is given to all students to contribute \$7.50 towards the general support of College community enterprises for the fall semester. At the beginning of the spring semester, a similar opportunity is given for a similar contribution for the remainder of the session. Thus, by the

paying of fifteen dollars (\$15.00) in the course of the year, the student is relieved of the frequent assessments which will otherwise be necessary. This contribution is, of course, entirely voluntary, but it would be well for those who are interested in the general activities described below to understand approximately what financial demand will be made upon them, and to come prepared to meet it.

NOTE.—The organizations here named are those involving the entire student body. The various other organizations, literary, dramatic, honorary, and social, are, of course, limited in membership and so are not covered by the \$15.00 of the budget system.

Organizations

THE STUDENT GOVERNMENT ASSOCIATION.—This organization, based upon a charter granted by the faculty, has for its purpose the ordering and control of the dormitory life and of most other matters not strictly academic. Its membership includes all the students. The most gratifying results have continually followed the increase of opportunity and of responsibility thus given to the students, especially in the development of self-restraint, consideration for the majority, and the true co-operative spirit.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION.—The objects of this Association are:

To develop the spiritual life of the students.

To co-operate with other student associations in the general work of the Young Women's Christian Association.

To do all possible to advance the Kingdom of God.

The various departments of Association work are well organized and render efficient service. The Association has

the sympathetic interest and support of the faculty, while the student body, with few exceptions, are members. The leaders among the students are also the leaders in this work, and thus the organization wields a large influence for good.

DEBATING SOCIETIES.—Two debating societies contribute much to the social life and literary attainments of the students. The Mnemosynean Society was organized in 1891 and the Propylean Society in 1897. Each society has an attractive hall appropriately furnished and admirably adapted to its purpose.

ATHLETIC ASSOCIATION.—Athletic sports, not including the regular gymnastic classes, are managed by the Athletic Association. Interclass basket-ball is the leading sport in the fall and winter months, while the annual tennis tournament is the spring event. An athletic field affords excellent opportunities for outdoor basket-ball, tennis, and field hockey.

Publications

The students issue the following publications:

THE AURORA.—A quarterly magazine devoted to the development of literary effort among the students.

THE SILHOUETTE.—The annual, published by the student body. It is intended to give, in humorous and artistic vein, a record of the student life for the current year.

THE AGONISTIC.—A weekly newspaper published by the student body. It has as its object the promotion of loyalty to the College and the dissemination of local news.

THE Y. W. C. A. HANDBOOK.—A manual of information issued annually by the Association, chiefly for the benefit of new students.

RELIGIOUS LIFE

Every effort is made to promote earnest and pronounced religious life in the College. Students are requested to select the church they desire to make their church home as soon as practical after arrival. Ordinarily this must be the church of their parents. They are expected to attend this church on Sunday morning. Attendance on daily morning prayers is required.

The regular Sunday evening service and the mission study classes, conducted by the Young Women's Christian Association, are largely attended, as is also the tri-weekly vesper service held in the chapel under the leadership of members of the faculty.

APPOINTMENT COMMITTEE

The faculty has appointed a Committee with a view to assisting Agnes Scott students in securing positions. All graduates and other students of the College who desire to teach are invited to apply for registration blanks, fill them out and file them with this Committee. Address, Miss Anna Young, Secretary, Decatur, Ga.

ALUMNÆ ASSOCIATION

During the Commencement of 1895 the Agnes Scott Alumnae Association was organized. The purpose of the Association is to promote the welfare of the College and its alumnae by increasing the interest of its members in the College and in each other.

The work of the general Association is conducted largely through the Alumnae Council and the standing committees, the annual meeting being held in Atlanta during Commencement week. Two alumnae represent the Association on the Board of Trustees.

The Association has established the Agnes Scott Aid League, which will lend money to students who need to borrow in order to complete their College course. Only Juniors and Seniors and students who have not more than two years of work to secure a degree, may borrow from the fund. Not more than \$150.00 will be lent to any student in one year. No interest will be charged till one year after the borrower has finished her college course. From that date all unpaid loans and parts of loans will begin to draw interest at six per cent. until paid.

Applications for loans should be made to the President of the Association through the President of the College.

The officers of the Association are as follows:

President—Mary Wallace Kirk, '11, 209 South Cave St., Tusculumbia, Ala.

Vice-President—Mrs. Harold B. Wey, '12, 287 Myrtle St., Atlanta, Ga.

Secretary—Catherine Parker, '15, 12 Avery Drive, Atlanta, Ga.

Treasurer—Florence N. Smith, '13, 516 West Peachtree Street, Atlanta, Ga.

BEQUESTS

Gifts to the College may take the form of funds for the establishment of scholarships or professorships; of additions to the material equipment; or of contributions to the general endowment fund. Special conditions may, of course, be attached to any gift.

Form of Bequest
